

DAVIS LL 2026 SAFE SUMMARY

League Location: DAVIS, CA

League ID: 4056404

DAVIS LL 2026 SAFE SUMMARY

Dear Volunteers, Parents/Guardians, and Players:

DAVIS LL is committed to providing a safe, welcoming environment where every player, volunteer, and family feels supported. Safety is an important part of every season, and we believe it is a shared responsibility that helps everyone enjoy the game with confidence and peace of mind.

As part of Little League SAFE, our league has confirmed the steps we take to protect children, prepare volunteers, and maintain safe facilities and playing conditions. From equipment checks and emergency planning to strong child protection practices and volunteer training, our goal is to create a positive, fun, and secure experience for every participant.

Thank you for being part of a community that puts kids first and works together to help ensure a safe, memorable Little League season.

Sincerely,

DAVIS LL Board of Directors

LEAGUE LEADERSHIP AND CONTACTS

Keeping contact information up to date helps volunteers know exactly who to reach when questions or safety concerns arise.

Primary Contacts

Mark Kisting

League President

mark@davislittleleague.org

CHILD PROTECTION

Little League requires every chartered league to follow a set of core child protection policies to help keep children safe. Protecting players is our highest priority, and these policies ensure volunteers understand their responsibilities both on and off the field.

Your league has confirmed that all of the following policies are in place:

1. Annual Background Checks

DAVIS LL confirms that all volunteers with regular contact with players complete annual background checks through J.D. Palatine (JDP), as required by Little League Regulation I(c) 8 and 9. Anyone with a disqualifying offense is prohibited from participating in any Little League activity. Background check laws vary across the country, and any additional requirements that apply to your league can be found at <https://www.littleleague.org/player-safety/child-protection-program/state-laws-background-checks-leagues/>. Your league is responsible for understanding and complying with any applicable state laws regarding background checks.

2. Annual Abuse Awareness Training

DAVIS LL requires all volunteers to complete the Little League Abuse Awareness Training each year before assuming any duties. This training helps volunteers recognize, prevent, and respond to misconduct and abuse. Little League Abuse Awareness Training can be found at <https://www.littleleague.org/university/articles/abuse-awareness-training-course/>

3. Mandatory Reporting of Child Abuse

DAVIS LL acknowledges that all volunteers are mandatory reporters under federal law and must report suspected child abuse, including sexual abuse, to the proper authorities within 24 hours. Reports should also be shared with the League President and District Administrator. State reporting requirements vary, and any laws that apply to your league can be found at <https://www.littleleague.org/player-safety/child-protection-program/state-specific-information-child-abuse/>. Your league is responsible for understanding and complying with any applicable state laws.

4. Non-Retaliation Policy

DAVIS LL has adopted a policy that prohibits retaliation against anyone who makes a good-faith report of suspected abuse or misconduct. This ensures volunteers feel safe coming forward with concerns.

5. One-on-One Interaction Policy

DAVIS LL has adopted the Little League One-on-One Interaction Policy, which requires that all interactions between adults and minors be observable and interruptible by another adult. This reduces opportunities for misconduct while still supporting positive mentoring relationships.

Best Practice: Reinforce child protection expectations clearly and consistently so volunteers know what to do and who to contact.

- Review expectations with all volunteers at the start of each season.
- Make reporting steps clear and easy to follow.
- Keep child protection policies easily accessible.

Additional information provided by your league:

The CDC Heads Up Concussion Training Course must be completed by all Coaches and Parent Umpires. They submit their certificates and this is tracked by the Safety Officer prior to the start of every season. Completing this training is a one time requirement in the state of CA. Concussion awareness information is shared before the start of every season with Coaches, and additional information is provided on our website. The Abuse Awareness Training Course is an annual requirement for Coaches and Parent Umpires. They submit certificates and this is also tracked by the Safety Officer prior to the start of every season. Additionally, all Coaches, Board Members and Parent Umpires are LIVESCAN fingerprinted to be compliant with CA state Law, this is tracked by the Safety Officer prior to the start of every season. Completing LIVESCAN fingerprinting for DLL is a one time requirement in the state of CA. This Spring '26, we have shared our Sudden Cardiac Arrest and Concussion Protocol Policy on our website for Coaches and families to familiarize themselves with. Every family has signed and returned a hard copy of this policy to their players Coach who holds on to them all season. This is in addition to the required Medical Release forms that are also completed by each family and returned prior to the first practice, and held on to by each Coach. An audit of Coaches to ensure that both of these forms for each player have been completed is performed by player agents in each division. In Fall '26, all coaches will be required to complete Sudden Cardiac Arrest training (online), this is a one time requirement. We have had an AED on site for several years and offered a CPR/AED + First Aid course for Coaches in October, 2025. We also keep a LIVEVAC choking rescue device on site. We are transitioning to making Helmets with C-Flap a requirement starting Fall '26, and have purchased one for each team AA Minors and above. Prior to games, Coaches is expected to have inspected the playing field and noted any potential safety issues or hazards. Coaches are also expected to ensure that players equipment is safe for use and that male players are wearing a protective cup (mandatory if playing Catcher position). For any game where there is a youth umpire a Game Coordinator is provided by the visiting team. The two exceptions to this are if an adult umpire is also present on the field, or if there are two youth umpires ages 16 or older working the game. Every team is given a first aid kit that is procured by the Equipment Manager prior the start of each season.

Child Protection Resources:

EMERGENCY PREPAREDNESS

Being prepared for unexpected situations helps keep players, volunteers, and families safe. The information below highlights the emergency procedures and contacts in place during all league activities.

Emergency Contacts

- In any emergency situation, volunteers should immediately **call 911**
- Poison Control is also available nationwide at **1-800-222-1222**

Local Emergency Contacts

- **Police Department:** (530) 758-3600
- **Fire Department:** (530) 756-3400
- **EMS:** 911
- **Urgent Care:** 530-759-9110
- **Local Hospital:** (530) 756-6440

Emergency Action Plan

Emergencies can happen when you least expect them. A clear and accessible EAP helps volunteers respond quickly, communicate effectively, and take the right steps to keep players and families safe.

DAVIS LL has an Emergency Action Plan in place. Regularly reviewing this plan with volunteers and players helps ensure everyone knows how to respond quickly and confidently during an emergency.

Additional information provided by your league:

Davis Little League Complex – Emergency & Evacuation Plan

1. Purpose

This Emergency Evacuation Plan establishes clear procedures to protect players, families, volunteers, and staff at the Davis Little League Complex during emergencies, including but not limited to fire, earthquake, severe weather, medical emergencies, and active threats.

2. Emergency Command & Responsibilities

Board Member on Site (Incident Lead)

Overall coordination during emergencies

Liaison with emergency responders

Determines evacuation vs. shelter-in-place

Coaches / Team Managers

Account for all players immediately

Maintain supervision of players at all times

Carry team roster and emergency contacts

Umpires

Stop play immediately upon emergency signal

Assist with clearing fields and directing evacuation

Volunteers / Board Members

Assist spectators, children, and individuals with disabilities

Help direct traffic and maintain clear emergency access

Everyone

Do your best to remain calm, your example cues others to respond similarly.

3. Emergency Notification

Emergencies may be identified through:

Visual signs (fire, smoke, structural damage)

Audible cues (earthquake, gunshots, alarms)

Instructions from emergency services or league officials

Emergency Signal:

Verbal announcement over loudspeaker in Snack Shack if possible and without risk: "STOP PLAY – EVACUATE"

Emergency Contacts:

911 – Immediate life-threatening emergencies

Davis PD Dispatcher: (530) 758-3600

Davis Police Department (530) 747-5400

Davis Fire Department (530) 756-3400

4. Primary Evacuation Routes & Assembly Areas

West Evacuation Route/Assembly Area: Carefully cross F St and proceed to Community Park, find large grassy open space.

East Evacuation Route/Assembly Area: Carefully cross through the parking lot towards the bike path that runs behind it, head North or South on the bike path depending on threat. Keep H St. open for emergency vehicles.

5. Emergency-Specific Procedures

A. Fire (Wildfire, Structure, Vehicle)

Stop play immediately

Evacuate upwind if smoke is present

Do not attempt to retrieve equipment

Keep access roads clear for fire vehicles

B. Earthquake

During shaking: Drop, Cover, and Hold On if shelter is available; otherwise move to open space away from hazards

After shaking stops: Evacuate fields calmly

Watch for aftershocks, damaged fences, poles, or gas smells

C. Severe Weather (Lightning, Extreme Heat)

Lightning: Stop any game or practice at the first sound of thunder and permanently discontinue any game or practice at the first sign of any lightning. Stay away from metal fencing (including dugouts)! Also, avoid trees, poles and other high objects. Do not hold a metal bat. Walk, do not run, to your car and wait for a decision on whether or not to continue the game or practice.

Extreme Heat: Anytime the temperature is above 90 degrees F, provide plenty of water, shade and rest periods during games and practices. Encourage players to drink small amounts frequently. If you observe any player exhibiting signs of heat related illness (cramps, fatigue, light-headedness, nausea, vomiting or headache), you must

remove the player from the field immediately, place in shade and hydrate. If symptoms do not improve immediately, seek prompt medical aid.

Tips to Prevent Heat Illness:

Know that once you are thirsty you are already dehydrated.

Drink before you become thirsty.

Drink plenty of liquids like water, or sports drinks every 15 minutes.

Water seems to be the preferred beverage. Water has many critical functions in the body that are important for performance. They include carrying oxygen and nutrients to exercise muscles.

Do not drink beverages with caffeine before practice or games. Caffeine can increase the rate of dehydration.

Do not exercise vigorously during the hottest time of the day.

Practice in the morning and during the latter part of the evening.

Wear light color loose clothes.

Use sunscreen to prevent sunburn.

If you begin to feel faint or dizzy, stop your activity and cool off by sitting in the shade, air-conditioned car or using a wet rag to cool you off.

How is it treated?

Emergency medical treatment is necessary. If you think someone has heatstroke, call 911 or a doctor immediately. In the meantime, give first aid as follows:

Move the person to a shady area, Umpire Room is air conditioned.

Cover the person with a wet sheet and keep the sheet wet for cooling from evaporation.

Fan the person with paper or an electric fan (preferably not cold air).

Sponge down the body, especially the head, with cool water.

Continue giving first aid until the body feels cool to the touch.

If the person is conscious, let them sip water, fruit juice, or a soft drink.

Drinking Guidelines for Hot Day Activities

Before: Drink 8 oz. immediately before exercise

During: Drink at least 4 oz. every 20 minutes

After: Drink 16 oz. for every pound of weight lost

Dehydration signs: Fatigue, flushed skin, light-headed

What to do: Stop exercising, get out of sun, drink

Severe signs: Muscle spasms, clumsiness, delirium

© 1996 Little League Baseball® and Musco Lighting, Inc.

Little League Heat Illness Prevention Policy

D. Active Threat / Gunfire

Run: Evacuate immediately if safe to do so, LEAVE BELONGINGS

Hide: If evacuation is unsafe, shelter behind solid barriers

Fight: As last resort only, to protect life

Follow law enforcement instructions without delay.

E. Medical Emergency

Stop play and clear area

Call 911 and get AED from Managers Office if needed

Assign one adult to meet responders at complex entrance

6. Accountability, Communication Tree & Reunification

Coaches immediately conduct a player headcount at assembly area

Missing individuals are reported by each coach to their Division Player Rep who reports to Incident Command who reports to emergency responders

Players are released only to their parent/guardian

No one re-enters the complex until cleared by authorities

7. Access & Traffic Control

Emergency vehicle routes must remain clear at all times

Volunteers may assist with directing foot traffic only if safe

Spectators should not block entrances or exits

8. Equipment & Preparedness

Each team should have:

Team roster with up to date emergency contact information

First aid kit

Charged mobile phone

Complex should maintain an AED

9. Training & Review

Emergency procedures reviewed annually with coaches and umpires

Evacuation maps updated as fields or layouts change

Incident debrief conducted after any emergency

Emergency Preparedness Resources:

- Little League Lightning & Severe Weather Safety Guidelines
(<https://www.littleleague.org/university/articles/staying-safe-from-lightning-at-the-field/>)

FIRST AID & INJURY PREVENTION

A prepared volunteer is better equipped to respond when injuries or medical situations occur. Below is an overview of the first aid training, equipment, and safety practices in place for the season.

First Aid Training

First aid training helps volunteers respond effectively when injuries or emergencies happen. These trainings reinforce skills such as:

- Treating minor injuries
- Managing bleeding and nosebleeds
- Recognizing potential fractures or serious injuries
- Identifying head-injury symptoms
- Responding to heat-related illness
- Treating allergic reactions
- Knowing when to call 911

First aid training requirements for DAVIS LL:

- Little League First Aid Awareness Training: **Recommended**
- Formal First Aid Certification: **Recommended**
- CPR Certification and AED Use Training: **Recommended**

First Aid Kits

Accessible first aid supplies help volunteers respond quickly when an injury occurs. Keeping first aid kits stocked and easy to reach helps volunteers respond quickly during games and practices. Every team in DAVIS LL has a first aid kit available at games and practices.

Recommended First Aid Kit Contents:

- Adhesive bandages (various sizes)
- Sterile gauze pads and rolled gauze
- Antiseptic wipes
- Instant cold packs
- Elastic wraps
- Tweezers and disposable gloves
- Nosebleed supplies (gauze, tissues)
- Small splint or finger splint
- CPR mask or face shield
- Allergy/sting relief wipes
- Cold Packs
- Tape and scissors

Best Practice: Each team should receive its first aid kit at the start of the season. First aid kits should travel with the team and be kept in an easy-to-reach spot during both games and practices.

Concussion Awareness

DAVIS LL has confirmed that it follows required concussion training and has a protocol in place for recognizing and responding to potential head injuries during practices and games. Little League encourages all volunteers to follow the "When in doubt, sit them out" approach so players are removed from play immediately if a concussion is suspected.

Common signs and symptoms of a possible concussion include:

- Headache or pressure in the head
- Dizziness or balance problems
- Confusion, memory issues, or appearing "out of it"
- Nausea or vomiting
- Blurred vision or sensitivity to light or noise
- Behavior that seems unusual for the player

State concussion laws vary across the country. Some apply only to school athletics, while others apply to all youth sports organizations. State-specific information can be found at: <https://www.littleleague.org/player-safety/concussions-youth-athletes/>. Your league is responsible for understanding and complying with any applicable state laws.

Best Practice: If a concussion is suspected, volunteers should follow these steps:

- Remove the player from play immediately
- Ensure the player is monitored by an adult
- Refer the player to a licensed health care professional for evaluation
- Do not allow return to play on the same day
- Require written medical clearance before the player resumes practices or games

Access to Automated External Defibrillators (AED)

AEDs can play a lifesaving role during sudden cardiac emergencies, and clear access helps volunteers respond quickly when every second matters.

DAVIS LL has reported that it has AEDs available at some league facilities.

Best Practice: AEDs are most effective when:

- Volunteers know the exact location of each device
- Devices are accessible during practices and games
- Batteries and pads are checked and replaced as needed
- Multiple volunteers are trained in basic AED use

State laws addressing AED access and sudden cardiac arrest (SCA) training can vary across the country. Some requirements apply only to school facilities or interscholastic athletics, while others extend to youth sports organizations or municipal fields. State-specific requirements for AEDs can be found at:

<https://www.littleleague.org/player-safety/state-laws-on-automated-external-defibrillators/>

State specific requirements for SCA training can be found at: <https://www.littleleague.org/player-safety/state-laws-on-sudden-cardiac-arrest-training/>.

Your league is responsible for understanding and complying with any applicable state laws.

Additional information provided by your league:

Both Spanish and English versions of the Davis Little League Sudden Cardiac Arrest/Concussion Policy and Little League International Medical Release Forms are linked on our website under "Safety/Forms".

First Aid & Injury Prevention Resources:

- First Aid Kit Checklist (<https://www.littleleague.org/university/articles/first-aid-kits-an-items-list/>)
- Little League First Aid Awareness Training (<https://www.littleleague.org/university/articles/first-aid-awareness-training-course/>)
- CDC Heads Up – Concussion Resources (<https://www.cdc.gov/heads-up/>)
- State-Specific Concussion Laws (<https://www.littleleague.org/player-safety/concussions-youth-athletes/>)
- State-Specific AED Laws (<https://www.littleleague.org/player-safety/state-laws-on-automated-external-defibrillators/>)
- State-Specific SCA Training Laws (<https://www.littleleague.org/player-safety/state-laws-on-sudden-cardiac-arrest-training/>)

EQUIPMENT SAFETY

Safe, well-maintained equipment helps prevent injuries and supports a positive playing experience. The information below reflects how playing equipment is inspected and monitored throughout the season.

Batting Helmets

All batting helmets must be NOCSAE-certified and free of cracks, dents, or deteriorating padding.

- Helmets are inspected at the start of the season and as needed
- Damaged or ill-fitting helmets are removed from use immediately
- Non-OEM (non-manufacturer) modifications are prohibited
- Properly fitted, undamaged helmets play an important role in preventing head injuries

Catcher's Gear

Catcher's equipment must be complete, well-maintained, and properly fitted for each player. A full set includes:

- Helmet with full face mask
- Dangling throat guard (required)
- Chest protector
- Leg guards

Equipment Inspections

At DAVIS LL, coaches inspect equipment regularly. equipment officer, kermit kruse inspects prior to season. carry out regular equipment inspections throughout the season. These checks help identify items that should be repaired or removed from use.

- Unsafe or excessively worn equipment should be removed immediately
- Routine inspections help ensure players are always using equipment that will keep them safe from injury

Best Practice: Teach players to do quick self-checks of their helmets and gear before practices and games. Helping players look for cracks, loose padding, or missing pieces builds good habits and supports a shared culture of safety.

Additional information provided by your league:

Davis Little League Batting Helmet UPDATE:

Starting Spring 2026, every team in AA division and above will be provided with a batting helmet that includes a built-in chin/jaw guard ("C-flap"). Families may still purchase their own NOCSAE-certified model if preferred (see details below).

We are currently updating our batting helmet policy for all AA divisions and above, and expect to require these helmets beginning in Fall 2026.

What's Allowed

Little League International allows helmets only if the jaw guard is built in or approved by the manufacturer.

If your child already owns a helmet, you may purchase a manufacturer-approved chin flap attachment only if the helmet brand permits it.

Please ensure any helmet used is NOCSAE-certified.

Aftermarket, "universal fit," or self-drilled guards are not allowed.

Equipment Safety Resources:

- Equipment and Facility Check-Ups (<https://www.littleleague.org/university/articles/make-regular-equipment-facility-check-ups-a-year-round-endeavor-for-your-league-or-district/>)

FACILITY SAFETY

Safe, well-maintained facilities help create a positive experience for players, families, and volunteers. Your league has shared the steps it takes to help keep playing conditions safe throughout the season.

Seasonal Facility Inspection

DAVIS LL completes a thorough review of all fields and facilities at the beginning and end of each season. This inspection helps the league:

- Identify needed repairs
- Document safety concerns
- Plan for maintenance or improvements
- Confirm that fields and common areas are ready for use

Ongoing Facility Checks

DAVIS LL conducts regular in-season checks to help ensure facilities remain safe and ready for play. These checks typically look for:

- Loose or damaged fencing
- Worn or broken bases
- Slick, uneven, or poorly drained surfaces
- Broken or unstable bleachers
- Lighting or electrical concerns
- Hazards in dugouts, walkways, or spectator areas

Field Safety

Before every game and practice, fields and dugouts should be reviewed to ensure safe playing conditions. These quick checks help volunteers:

- Spot hazards early
- Prevent injuries
- Address small issues before they become larger concerns
- Confirm that field equipment, playing surfaces, and dugout areas are safe and ready for use

At DAVIS LL, coach or manager carry out field and dugout safety checks before games and practices.

Annual Little League Facility Survey

Each year, leagues complete the Little League Annual Facility Survey, which records the condition of each field, identifies maintenance or safety needs, and documents key details about layout, features, and emergency equipment.

A report generated from DAVIS LL's completed facility survey is included with this SAFE Summary.

Best Practice: Create a simple, shared inspection checklist for coaches and volunteers to use before games and practices. Consistent use of the same checklist helps ensure issues are spotted early and reported quickly.

For more information about facility safety at DAVIS LL, or to report a concern, please contact: Facilities Manager, David Hughes.

Facility Safety Resources:

- Day to Day Safety Checklist (<https://www.littleleague.org/university/articles/the-safest-little-league-experience-comes-from-doing-common-tasks/>)
- Pre-Season Facility Checkup (<https://www.littleleague.org/university/articles/conduct-a-facilities-safety-check-before-the-season-starts/>)

CONCESSION STAND SAFETY

Concession stands add to the game day experience, but they also involve equipment, heat sources, and food handling, all of which require clear safety procedures. The information below summarizes how DAVIS LL helps maintain a safe concession operation throughout the season.

DAVIS LL has confirmed that its concession stand(s):

- Follow all applicable local health and safety regulations
- Provide volunteers with guidance in safe food handling and equipment use
- Maintain a working fire extinguisher that is readily available
- Keep first aid supplies in the concession stand
- Do not allow minors to work in or remain inside the concession stand during operating hours

Best practice: Post simple safety reminders inside the concession stand so volunteers can quickly review expectations before each shift, including:

- Handwashing steps
- Safe food temperatures
- Equipment shut-off procedures
- Location of the fire extinguisher
- Emergency contact information

Additional information provided by your league:

Our Snack Shack Lead Coordinator conducts training for Teen volunteers annually.

For more information about concession stand safety at DAVIS LL, or to report a concern, please contact:
Concessions Manager

Concession Stand Safety Resources:

- Concession Stand Safety (<https://www.littleleague.org/university/articles/concession-stand-safety-tips-12-steps-to-safe-sanitary-food-service/>)
- Concession Stand Safety Checklist (<https://www.littleleague.org/university/articles/concession-stand-inspection-checklist/>)

TRAINING & EDUCATION

When volunteers are trained and prepared, it helps to prevent injuries, respond to emergencies, and create a positive experience for everyone involved. This section highlights the volunteer trainings that DAVIS LL requires and encourages.

Abuse Awareness Training

Little League requires all volunteers who undergo a background check to complete Abuse Awareness Training each year. DAVIS LL confirms that all required volunteers complete Abuse Awareness Training each season.

Safety Awareness Training (Little League University)

Safety Awareness Training helps volunteers understand common safety risks, recognize unsafe situations, and take proactive steps to prevent injuries.

DAVIS LL requires Safety Awareness Training for: League Officers/Board Members, Managers and Coaches, Umpires.

First Aid Awareness Training (Little League University)

First Aid Awareness Training helps volunteers recognize injuries, respond appropriately, know when to call 911, and take steps to prevent medical emergencies.

DAVIS LL requires First Aid Awareness Training for Not Required in our League.

Diamond Leader Training (Little League University)

Diamond Leader Training supports coaches and volunteers in creating a positive team environment focused on player well-being, sportsmanship, communication, and healthy culture.

DAVIS LL requires Diamond Leader Training for Managers and Coaches.

Additional Trainings Offered or Encouraged

DAVIS LL has indicated that it offers or requires the following additional trainings:

- Coaching Skills & Game Fundamentals Training
- CPR Certification
- Positive Coaching Alliance Workshop

Best practice: Share a simple training plan at the start of the season outlining required courses, who must complete them, and suggested deadlines. Clear expectations help volunteers stay on track.

Additional information provided by your league:

We offered a League sponsored CPR/AED + First Aid Course 10/2025 and hope to make this an annual event. We also offer a Positive Coaching Alliance Workshop annually which is mandatory for all Coaches.

Training and Education Resources:

- Little League University (LLU) Trainings Overview (<https://www.littleleague.org/university/training/>)
- Little League Abuse Awareness Training (<https://www.littleleague.org/university/articles/abuse-awareness-training-course/>)
- Little League Safety Awareness Training (<https://www.littleleague.org/university/articles/safety-awareness-training-course/>)
- Little League First Aid Awareness Training (<https://www.littleleague.org/university/articles/first-aid-awareness-training-course/>)

ACCIDENT INSURANCE & INCIDENT REPORTING

Accidents can happen at any time, and being prepared helps leagues support families and volunteers when they do. Understanding and documenting injuries ensures everyone gets the help they need and allows the league to strengthen safety practices for future seasons.

How to Submit an Accident Claim

If a player or volunteer requires medical treatment after a league-sanctioned activity, families should follow these steps:

1. Download the Accident Claim Form from LittleLeague.org.
2. Provide the claimant's full information, including parent or guardian details if the claimant is a minor.
3. Complete all sections of the form. Missing information causes delays.
4. Include primary insurance information. If the claimant has no insurance, written employer verification is required.
5. Attach itemized medical bills that include dates of service, procedure codes, diagnosis codes, and charges.
6. For dental injuries, submit bills to the primary medical and dental insurer first, then include the insurer's Explanation of Benefits.
7. Have a league official (President, Safety Officer, etc.) complete and sign the League Statement section.
8. Completed claim forms and supporting documents must be mailed. Email and fax submissions cannot be accepted.

Questions about the claim process may be sent to AccidentClaim@LittleLeague.org.

Incident Tracking

DAVIS LL documents all injuries and incidents that occur during league activities.

- Reports are completed using the official Little League Incident Tracking Form.
- A designated league officer is responsible for collecting and reviewing each report.
- Reviewing incident information throughout the season helps the league identify trends, address hazards, and strengthen safety practices.

Best practice: Monitor incident reports and near-miss situations regularly during the season. Tracking both helps identify emerging patterns, field conditions, equipment problems, or other safety concerns, so the league can take proactive steps to prevent injuries and improve the overall safety of the program.

Additional information provided by your league:

Accident Reporting Procedures

Report all injuries within 24 hours to the Davis Little League Safety Officer using the injury report form found on the DLL website.

What to report: Report any incident involving a player, manager, coach, umpire, volunteer or spectator that leads to medical treatment and/or first aid to the Safety Officer. This includes passive treatments such as the evaluation and diagnosis of the extent of the injury or periods of rest.

When to report: Report any such incident to the Davis Little League Safety Officer within 24 hours of the occurrence. You can contact the safety officer or report safety concerns directly to the safety officer.

How to report:

The person reporting the incident must complete an injury report form and submit it to the Safety Officer. You may also find the form on our website at www.davislittleleague.org.

Include the following minimum information:

- Name and telephone number of the individual(s) involved, including any injured party
- The date, time and location of the incident.
- A detailed description of the incident.
- A preliminary estimation of the extent of any injuries.
- The name and telephone number of the person reporting the incident.

Safety Officer's responsibilities:

To follow up with the injured party (or their parent/guardian) within 48 hours to:

1. Verify the information received and gather additional necessary information.
2. Check on the status of the injured party.
3. Advise the injured party (or their parent/guardian) of Davis Little League's insurance coverage and the provisions for submitting any claims in the event the injury required medical treatment (such as an emergency room or doctor's visit). You can obtain claim forms at www.davislittleleague.org.

If an injury is more than minor in nature, the Safety Officer will periodically follow up with the injured party to check on the status of their injury and whether any other assistance is needed, such as submission of insurance forms. Once the individual is participating in the league again, and no other claims are expected, the Safety Officer shall consider the case "closed" and no further follow up is necessary.

To report an incident, or for more information about filing an accident claim, please contact: League Safety Officer

LITTLE LEAGUE RULES & SAFETY BEST PRACTICES

Creating a safe, enjoyable playing environment begins with following Little League's official safety rules and reinforcing practices that protect players, volunteers, and families. DAVIS LL has confirmed that it meets all required safety standards.

Little League Safety Rules

Little League's official safety rules are designed to prevent injuries and establish consistent expectations across the program. These rules help ensure safe play during practices and games.

Leagues must enforce the following:

- On-deck batters are not permitted in the Majors Division and below
- Batters, base runners, and player base coaches must wear helmets at all times
- Catcher's gear must include a dangling throat guard
- Metal cleats are prohibited in the Majors Division and below
- Disengageable bases are required on all baseball and softball fields
- Head-first sliding while advancing is not permitted in the Majors Division and below
- Pitch count limits and required rest days must be followed in all baseball divisions
- Bats must meet current Little League standards
- Game balls must meet current Little League standards and be in good condition

Safety Best Practices

In addition to official rules, many leagues adopt extra safety practices that strengthen routines, reinforce expectations, and create a positive environment for players, families, and volunteers.

Common safety best practices include:

- Keeping dugout and field gates closed during play
- Using a double first base on baseball and softball fields
- Reminding players not to throw equipment or swing bats near others
- Reviewing lightning and severe weather procedures with coaches and umpires
- Ensuring each team has emergency contact information available at practices and games
- Leading age-appropriate warm-ups and stretching to reduce injury risk
- Marking spectator areas clearly and keeping them separate from the field
- Encouraging volunteers, parents, and players to model sportsmanlike and respectful behavior
- Sharing safety reminders with families (emails, signage, or meetings)
- Posting safety signage in common areas (e.g., "No Climbing Fences," "Foul Ball Awareness," "AED Located Here")

2026 FACILITY SURVEY REPORT

This report provides an overview of the information submitted by DAVIS LL through the Little League Annual Facility Survey. The survey helps document the condition of each field, identify safety or maintenance needs, and track important facility details such as fencing, bleachers, lighting, emergency equipment, and field use.

The information in this summary reflects the league's responses for each field and is intended to support planning, safety awareness, and ongoing facility improvements throughout the season.
